

Water Well Screening

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

The “Well Informed” Texas Well Owner Network (TWON) program is an educational program that gives well owners the opportunity to have their well water samples screened for common contaminants including fecal coliform, E. coli bacteria, nitrates and high salinity. The screening of the water samples is followed by a 1-hour explanation of the results, water well protection practices and focuses on wellhead protection and recommendations for remediating well contamination.

Well Informed Screening - September 16 & 19

- Swisher County AgriLife Extension Office: 310 W. Broadway Avenue, Tulia
- Briscoe County AgriLife Extension Office: 415 Main Street, Silverton

- Pick up sample containers prior to September 16 from above locations
- Sample drop-off 8:30—10:00 a.m. September 16 at above locations

Results & Interpretation meeting:
Thursday, September 19th @ 2:00 p.m.
Swisher County Extension Office
310 W. Broadway, Tulia

**The cost of each sample is \$15 for residents of Briscoe County
Swisher County residents the High Plains UWCD #1 is covering sampling costs**
